## What We Do

We are a national real estate investment company that provides solutions for both homeowners and real estate investors through our exclusive marketplace. Our portfolio of companies helps homeowners move on from difficult properties while providing opportunities for local real estate investors to invest in their communities. The company operates in most major metropolitan areas across the nation and has helped more than 75,000 real estate investors to date.

Our family of brands include **New Western**, **HomeGo** and **Sherman Bridge Lending**. Each of these divisions focuses on helping to solve a specific need.

## About Our Brands

*New Western* provides real estate investors valuable market insight and easy access to the largest private source of distressed investment properties in the nation. Through our exclusive marketplace, real estate investors gain access to an extensive inventory of off-market properties that are ideal to either fix-and-flip or fix-and-rent.

*HomeGo* provides a simple and dependable way to sell a home that may need a bit of love to reach its full potential. We work directly with sellers or with their agents and have purchased more than 30,000 homes.

*Sherman Bridge Lending* provides fast, reliable capital for real estate investors. Through a variety of loan products, we help investors secure additional funding for the purchase and rehab of investment properties to either sell (flip) or rent (hold). The liquidity we provide the market makes it possible for investors take on more projects at the same time, make extensive improvements, and scale their real estate investment business faster.

## Why We are Different

As the largest private source of distressed investment properties in the nation, we offer real estate investors easy access to opportunities they wouldn't have otherwise. New Western has completely transformed the way residential real estate is bought and sold. Through our exclusive marketplace, investors are able to find and purchase an investment property in a matter of days instead of weeks or months

For more than a decade, our experience and deep local market knowledge, combined with extensive data, has allowed New Western to deliver an exclusive supply of inventory to the market. Additionally, we work tirelessly to navigate complicated transactions, eliminate obstacles, and deliver a seamless closing experience — all while giving home sellers a fresh start.

## How It Works

### Step 1

Speak with an agent about your investment goals and join our exclusive buyers' network.

### Step 2

Begin receiving property alerts for opportunities that match your search criteria.

### Step 3

Find a property you want to purchase, then work with our agent to acquire it.

### Step 4

Renovate your property to either resell it on the retail market or hold it as a rental.
